

PACIFIC AIDS Education and Training Center

presents a faculty development webinar

# Alcohol & HIV:

## WHAT CLINICIANS NEED TO KNOW

**March 5, 2013**  
**12-1:30PM PST**

The purpose of this 90-minute webinar is to provide HIV clinicians with a detailed overview of alcohol abuse and the behavioral and medical approaches for treating alcohol-addicted individuals.

### TARGET AUDIENCE:

Physicians, physician assistants, nurse practitioners, nurses, dentists, social workers, case managers, and other allied medical staff.

### LEARNING OBJECTIVES:

At the end of this webinar participants will be able to:

- Define at least three (3) key terms related to alcohol and at-risk drinking.
- Review the neurobiology, medical consequences, and epidemiology of alcohol abuse.
- Discuss the intersection of alcohol use and HIV/AIDS.
- Explain the key concepts of at least one (1) effective behavioral intervention and one (1) medical intervention for alcohol abuse and addiction.

**Beth Rutkowski MPH** has been associated with UCLA's Integrated Substance Abuse Programs (ISAP) since December 2000, and currently serves as the Associate Director of Training. Her work is primarily focused on the SAMHSA-supported Pacific Southwest Addiction Technology Training Center, where she assists in the development of training packages based on evidence-based substance use disorders research and targeted to the community at large. Additionally, she organizes and conducts conferences and trainings throughout the Pacific Southwest region on topics such as substance use disorders research and policy, methamphetamine abuse, process improvement strategies to improve client engagement and retention in treatment, SBIRT, HIV and drug abuse, substance abuse epidemiology, medication-assisted treatment, and best practices in addiction treatment.
