Presenter: Lisa Townshend, MSN, FNP – C, ANTHC Liver Disease & Hepatitis Program

Commander Townshend-Bulson has many achievements in the hepatitis C arena. She has participated in the Hepatitis C Virus Birth Cohort Testing Work Group a steering committee leading up to the development of new guidelines for the screening of baby boomers for hepatitis C. She is a member of the American Association for the Study of Liver Diseases (AASLD) and serves on AASLD's Hepatology Associates Committee. Her contributions to ANTHC's Liver Disease and Hepatitis Program include coordinating the hepatitis C treatment program and long-term hepatitis C research study, and participation in the development of ANTHC's *LiverConnect* videoteleconference program, the redesign of the ANTHC liver disease website, and the Living with Hepatitis C support group.

She holds a Master's Degree in Nursing and maintains advanced certification as a Family Nurse Practitioner, certified by the American Association of Nurse Practitioners, and is a member of the American Academy of Nurse Practitioners.
