

# **RPMS Behavioral Health System Version 4.0 Patch 4 Release Announcement June 2014**

The Indian Health Service Office of Information Technology and the Division of Behavioral Health announce the following application release:

- Behavioral Health System, Version 4.0, Patch 4 (RPMS namespace: AMH)
- This version/patch is not needed for EHR certification and/or Meaningful Use (MU).

A release notice from the IHS Office of Information Technology has been sent to all RPMS site managers, and site managers are advised to notify users once the application has been installed. Complete details of the modifications included in this release are included in the official release notice.

Thank you to our beta test sites, SouthEast Alaska Regional Health Consortium, The NATIVE Project & NATIVE Health of Spokane, and Saint Regis Mohawk Tribe Health Services, for their assistance with this release.

## **Overview of Changes**

1. The DSM-5 Code Set has been added to the application, which can be turned on via a new Site Parameter, and data entry screens have been redesigned to accommodate the new code set
2. Modifications have been made to the CPT entry module to allow the documentation of multiple quantities and modifiers
3. Modifications have been made to the application to accommodate the upcoming ICD-10 release

## **Additional Information**
